

Enhancing finance with secure and scalable cloud solutions

Quartey Limited

MODERNISING FINANCE SYSTEMS FOR THE BIOCHEMICAL SOCIETY: SEAMLESS MIGRATION TO AZURE CLOUD

CLOUD MIGRATION OVERVIEW: ACCESS DIMENSIONS, SQL MANAGED INSTANCE, VPN & AZURE FILESTORAGE

Database Migration to Cloud

Access Dimensions and SQL databases were migrated to Azure Managed Instance to enhance performance and reliability.

Secure Connectivity

VPN was implemented to ensure secure and encrypted connections between on-premises and cloud environments.

Scalable Storage Solutions

Azure FileStorage offered scalable and accessible cloud storage for efficient data management.

TEAM ONBOARDING, TRAINING, AND ENHANCED BACKUP SOLUTIONS

Comprehensive Team Onboarding

The team received thorough onboarding to effectively utilize Azure technologies for migration support.

Azure Technology Training

Focused training equipped the team with skills to manage and optimize cloud infrastructure.

Robust Backup Solutions

Implementing strong backup solutions ensured data integrity and sustained business continuity.

CONCLUSION

Modernised Finance System

Migration to Azure modernised the finance system, improving security, scalability, and efficiency.

Continuous Training

Ongoing training programs support user proficiency and effective system utilisation.

Advanced Backup Measures

Robust backup strategies ensure system resilience and data protection.
